Rep. Cleveland,

I have been addressing this issue since last year. We do conduct audits that look at DMV data to identify non-citizens. We then have to verify info through Homeland Security and the results we have been receiving show there is an extremely large number of voters that appear not to be citizens in the data we get from DMV but are citizens we when verify with Homeland Security. We're working with DMV to identify the issues.

Let me know if you have questions or want to talk.

Thanks,  
Kim

Subject: Re: NC voter rolls and DACA licenses

Mr. Wright,

Since I haven't received a reply from my first inquiry, I am re-sending my questions:

#1- When was the last time the voter rolls were cross checked with the names and addresses of DACA license recipients and,

#2- Do you plan to check the voter rolls for names and addresses of DACA license recipients before early voting begins on Oct 23rd?

Mr. Wright,

There have been 14,836 NC drivers licenses issued to illegal aliens under the Obama Admin's DACA decree since the program began. Those are the 9-20-2014 figures that were obtained from Sophia Spencer- Records Manager NCDOT.

I know that the voter registrations were initially checked in 2011 and some names were removed at that time however, thousands more have been issued in the last 3 years.

When was the last time the voter rolls were cross checked with the DACA license info and do you plan to check them again before early voting begins on Oct 23rd?
